PROFESSIONAL SUMMARY

Motivated Information Technology undergraduate with hands on experience in full-stack web development, object-oriented programming, and database management. Proficient in the MERN Stack, Java, PHP, C#, and MySQL, with a practical understanding of RESTful API development and core software engineering principles. Comfortable applying the Software Development Life Cycle (SDLC) to plan, build, and deliver structured, functional applications. Brings strong problem-solving ability, a collaborative working style, and a genuine drive to write clean, maintainable code. Eager to contribute technical skills and a growth mindset to a professional software development team through a Software Engineering Internship.

TECHNICAL SKILLS

Programming Languages

Java, JavaScript, C#, PHP, HTML5, CSS3, Python

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, PHP, RESTful API Development

Databases & SQL: MySQL, MongoDB, PostgreSQL, Prisma ORM, Database Design & Modelling

Tools & Platforms: Git, GitHub, Version Control, Visual Studio Code, Postman

Core Concepts: Object-Oriented Programming (OOP), SDLC, Software Engineering, System Analysis, Testing & Debugging, Technical Documentation

Professional Skills: Problem Solving, Teamwork, Communication, Time Management, Adaptability, Attention to Detail

EDUCATION

Higher National Diploma in Information Technology

2024 – Present

SLIATE (ATI Dehiwala) | Dehiwala, Sri Lanka

GCE Advanced Level (A/L) – Science Stream

2022

G/Prajapathi Girls' College | Ambalangoda, Galle, Sri Lanka

PROJECTS

Emma Fashion – Front-End Website

Technologies: HTML, CSS

- Developed a responsive fashion website interface using HTML and CSS.
- Designed multiple web pages with a focus on user-friendly navigation and visual presentation.
- Applied modern layout and styling techniques to create a consistent user experience.

Serene Hotel Management System

Technologies: Java, NetBeans

- Developed a hotel management system to manage customer bookings and hotel operations.
- Implemented features for room reservations, customer records, and booking management.
- Applied object-oriented programming concepts and software development principles during implementation.

LumaFit – Smart Workout Tracking Web Application

Technologies: MongoDB, Express.js, React, Node.js (MERN Stack)

- Built a full-stack workout tracking web application to help users monitor fitness activities and progress.
- Developed features for workout logging, exercise tracking, and performance monitoring.
- Integrated front-end and back-end components using the MERN stack and managed data through a MongoDB database.

Weekly Report Generator & Team Dashboard

Technologies :Next.js, React,Node.js ,Express.js, PostgreSQL, Prisma ORM, Tailwind CSS

- Developed a full-stack team reporting system that allows members to submit weekly reports and managers to monitor team progress.
- Implemented role-based authentication with Team Member and Manager access control using secure JWT authentication.
- Built a manager dashboard with filters, analytics, and charts to visualize report submissions, workload distribution, and team performance.
- Designed and managed database operations using PostgreSQL and Prisma ORM for efficient data storage and retrieval.

LANGUAGES

Sinhala (Native) | **English** (Professional Working Proficiency)
